

## Resalat page description diagram

Home page	
Highest priorities	Lowes priorities
Menu bar: The most important part of a web site is the menu bar, it keeps all of the site introduction in itself.	Ordering: If some one was in need of any book, the ordering part covers that kinds of needs.
News: Because every one can know what is going on here and what are we doing and what do we have.	Art gallery:in this part we use it because of two main propuses: the library artist activites and the Publicity of some one.
E-Book Library: The most usefull part of a library web site is the e-book part.	Contact us: If some one wants to contact to the library administratin, can use it but every one is not in need of the contaction, so it is in a lower priority.
Library Books: After the E-Books, The pager books are important and useful for user.	
Courses: A library in adition to be a book store, it could be a educatoin and cultural place, so the courses could be important for the library intrested people.	

E-Book Library	
Highest priorities	Lowes priorities
Menu bar: is for the site accecing.	Slide show: to indicate some pictures of our library, we need to use from a slide show.
E-book List: to introduce the books, we needs to first of all have a book list.	
E-Book Description: To introduce the Books more, we need to use from this part.	Other websites links: to introduce other web sites for the user for more books or researches.

News	
Highest priorities	Lowes priorities
Menu bar: is for the site accecing.	Social sites links: for more comunication this part is also nessecery.
News list: This part is devided in four main part(Official News,Articles,Advertises and Courses)	Calendar: It is very useful for the user Information.
News Description: For introducing the news more, we need this part.	

realastic library	
Highest priorities	Lowes priorities
It is also the same with the E-book library	

Courses	
Highest priorities	Lowes priorities
Menu bar: For web site accecing.	Links: to communicate and achieve more books, the user can use it. Calendar: nessecery.
Course list: if we have vary kinds of courses we needs to list them in a fit place.	
Course sub lists: because we devide the Courses in various parts, we must to have a short title from each class of each part.	
Description: For introducing the courses more like(teacher, time and etc).	
Search: if some one wants to search a specific title, can use it.	

Ordering	
Highest priorities	Lowes priorities
Menu bar: For web site accecing.	Form: for the user ordering, we need to have a form that the user must to introduce him/her self and write that what does he/she want. Calendar: nessecery.
Conditions: For each ordering, each library has it own conditions and problems, for solving them, it can be useful and on of needs.	

Contact us and about us	
Highest priorities	Lowes priorities
Library History: it give a breafe introduction to the user about the library.	Menu bar: For web site accecing. Links: For more comunication and user researches, we need some kinds of links.
Address, tel and email: for the user contaction, these kinds of information is needed.	
Message Holder: if user is intrested of communicating over the email, we must to have a place for doing that.
